

## What if...? Game

### LEVEL ONE – CHATTING TIME

In pairs, take turns to ask and answer the questions.

- What if... you could time travel and be involved in the making of any film? What would it be?
- What if... you could make a film anywhere in the world? Where would you go and why?

- What if... you could have any animal character from a film as your pet? Who would you choose?
- What if... you could go on a trip to the cinema with anyone from the film world? Who would it be and what would you see?
- What if... your film club starred in its own film? What would it be called?

### LEVEL TWO – THINKS

Thinks are simple-sounding but unusual questions that get you thinking and discussing creatively.

Don't 'overthink' your responses too much – there is no right or wrong answer! But you must be prepared to justify yourself.

Join with another pair and take turns to ask and answer these thinks.

- What colour would your favourite film be?
- Do good ideas come from inside or outside of your head?
- If you wrote the script for a film but it was never filmed, is it still a film?
- If a film is boring, is it because of you or the film?

### FINAL CHALLENGE

Compose five of your own film-inspired thinks. Work in teams to create the trickiest and most imaginative question for the whole class to answer.
